ABSTRACT

This article examines the similarities and differences between the information about the year and age of death of Kamil Khorezmi in the manuscripts of the work "Tazkirai shuaro".

KEYWORDS

Tazkira, source, secretary, copy, inventory, fund, ghazal, masnavi, work, letter, literature, poem, sheet, author.

INTRODUCTION

Hasanmurad Laffasi, who lived in the late XIX and early XX centuries, wrote "Tazkirai shuaro" which is one of the most important works in the field of textual and literary sources.

We have witnessed some differences when the age was compared with the manuscripts and the edition mentioned about the year of death of Kamil Khorezmi in Tazkira. We have compared such differences with

literary sources as well as data from other separate sources.

There is information about the death of Kamil Khorezmi on page 2 a of the 12561 digital manuscript of "Tazkirai Shuaro": "Kamil was unable to tolerate the pain of his eye, Feruz Muhammad Rahimkhundin gave him a permission to go to the doctor in Tashkent and spent golden and Lahli jewels. He couldn't recover and Kamil returned Khiva".

But Komil developed his ill with diarrhea, as a result of he suffered a lot and died at the age of seventy-two in 1315 (Laffasi, page 2 a of the 12561 digital manuscript). The same information is given in other manuscripts and publications of the tazkira (1897-98 (1315) as 72 years old). We reviewed the sources in order to clarify the data.

According to the book "Musical history of Khorezm": "Kamil died at dawn on the 27th day of the Shaban month in hijri 1317 during the reign of Pahlavon Mirzaboshi... Muhammad Rahimkhan" (1998). The book Mauni arsasi provides data (on page 29), according to their opinion Kamil Khorezmi died in the morning of December 31 in 1899 (Otamuradova & Abdurakhimov, 2012). According to Aziz Kayumov, "Kamil Khorezmi passed away from the world at the age of 74 in 1899, the last year of the XIX century" (Kayumov, 2019).

The book entitled "From the history of the art of Central Asia calligraphy" of Muradov (Murodov, 1974) provides information about Kamil Khorezmi on page 113: "having received permission from Khan, Kamil, whose eyes became blind, he came to Tashkent and showed his eyes to doctors. When he did not find a cure, he returned to Khiva. Khon hired his son Muhammad Rasul as mirzabashi instead of Kamil, and

Kamil became depressed and died at the age of 72 in 1899" (Kamil, 1975). Hayitmetov and Muminova who prepared devan of Kamil Khorezmi for publication in 1975 and they wrote "Kamil died at the age of 74, 1899 in Khiva" (Yunusov, 1980)

Musicologist Matiniyoz Yusupov said: "after the death of Kamil (1897), the works of dealing with the art and background of Khorezm have been slowed down, "Kamil's Book 1 of "Tazkirai Kayumiy "by Polatjon Kayumi at 191 Beti (170 page)...he did not stop his creative activity even when he was blindfolded. He was writing critical poems. He finally died in 1899 year, " he noted.

According to Kamil Avaz's book "Distant tones" on page 29 and Hasanmurod Kari Laffasy's manuscript provides the following information: " Kamil was diagnosed with eyes sore and developed his illness within three days, because of this disease he died at the age of 72 in 1897.

In the period of renaissance of the book of Uzbek literature provides an information on page 54, "it was noted in historical sources that Kamil at the end of his life, had been diagnosed with a severe eye disease and wanted to cure his suffering, had been in a serious relationship, had returned to his homeland in tears and soon died.

According to Laffasy's Tazkira, there is an information about evidence of the death of Kamil who died at the age of 72 in 1897, Laffasy had cited exactly the following: "according to the synchronic schedule, the 1315 Hijri year melody includes the period from 2 June of 1897 to 21 May of 1898, according to horoscope account says that the year of the dog began from 21 March in 1897 ". In our view, we can say from the above information that the author of the book " Khorezm musical history "Chokar Kamil is a person who knows

Khorezmi closely, and based on the scientists' views of A. Kayumav, A. Hayitmetov and V. Muminova, Kamil Khwarizmi died not at the age of 1315 (1897) at his 72 age, but he died at the age of 1899 at his 74 age as Laffasy wrote in his Tazkiras.

CONCLUSION

In the process of studying the manuscripts and editions of Tazkirai Shuaro, a comparison of the differences in the year and age of death of some poets shows that the date and age of death in Tazkirai Shuaro are sometimes erroneous. According to the author, he wrote the tazkira "as far as he could with the help of some of the brothers and relatives of the poets who lived in Khiva, as well as on the information of Khorezm historians." Later, when this manuscript was copied by the secretaries, it also caused some abbreviations and errors.

Hasanmurad Laffasi's work "Tazkirai shuaro" serves as a valuable source of coverage of the literary environment of Khiva.
